

The nation's leading pharmacy for specialized medical practices

**A PHARMACY SHOULD DO A BETTER JOB
SUPPORTING PHYSICIANS.**

WE DO.

When a patient fails to comply with your pre-op prescription regimen, your practice suffers. Having to postpone or cancel a patient's procedure can be both inconvenient and costly. Non-compliance can also lead to complications during surgery.

HomeMed is different. Unlike a typical pharmacy, we work directly with your office to determine your pre-procedure prescription instructions. Because various medications and their generic

equivalents each have unique properties, we learn your preferences so that they can be consistently applied with patient prescriptions.

We deliver the right medication directly to the patient's home and contact the patient to ensure the prescription has been received. We then follow-up at required intervals to issue reminders. A licensed pharmacist is on hand to answer any questions or provide additional information.

Best of all, our service is absolutely **FREE** to the physicians and patient.

HomeMed Pharmacy LLC

Why choose HomeMed?

IMPROVED PATIENT COMPLIANCE

- We contact the patient initially to ensure the prescription has been received and the regimen is understood
- Ensures pre-surgical prescription instructions are communicated to and understood by the patient
- Follow up contacts are made at the required intervals to provide reminders and ensure compliance

LOWER RISK FOR PHYSICIANS

- Reduces the need for patients to postpone surgery, which can be both inconvenient and costly for the practice
- Ensures better compliance with the pre-surgical medication regimen prevents complications during surgery
- Because various medications and their generic equivalents each have unique properties, we learn your preferences so that they can be consistently applied with patient prescriptions
- A licensed pharmacist is available during business hours to answer patient questions or concerns

CONVENIENCE

- A substantial inventory of ophthalmology medications are maintained in stock for all common ophthalmology procedures
- The physician office simply sends a fax or e-prescription including procedure date and instructions; we handle all the details
- We accept most major insurance plans and Medicare
- Shipping direct to the home is more convenient for the patient, and does not require a return trip to the pharmacy if a particular medication is not in stock

About HomeMed

Our 9,000-square-foot, temperature-controlled facility in Indianapolis is designed to ensure that our products are safely and securely stored prior to shipment. Our pharmacists and staff are committed to your complete satisfaction.

If you are interested in learning more about how HomeMed can help you improve patient care while achieving greater convenience for your practice,

please visit www.homemed.com and click on the "Physicians" tab. Getting started is easy... just let us know your administrative contact, and we'll give them all the details.

HomeMed has received a Verified Internet Pharmacy Practice Site (VIPPS) certification from the National Association of Boards of Pharmacy.
